Subject: Support Letter for HB 265

Dear Representatives Gardner, Petersen and Gara:

The Alaska Commission on Aging (ACoA) is pleased to offer support for HB 265, a bill to provide access to Medicaid patients who are approved for dentures using a two-year funding cycle for medical assistance benefits to cover the costs for complete and partial dentures in a single fiscal year. Thank you for sponsoring this important legislation.

The Commission believes HB 265 provides a common sense solution that allows patients and their dentists the flexibility to schedule treatment around the oral health needs of the patient, which will improve the quality of care for older Alaskans and other qualifying recipients. Moreover, this legislation enhances the cost-effectiveness of the current Medicaid Adult Dental program by reducing the number of oral surgery visits, medical procedures, and related travel costs required for individuals who need a complete set of dentures but are limited to half of a set of dentures per fiscal year under the existing program. Anecdotally, we have learned that some individuals may even refuse partial extractions in one arch knowing that they could be without teeth for a prolonged period waiting for Medicaid to cover the cost of the other complete denture in the next fiscal year.

Good nutrition is vital for health and wellness across the life span and depends on oral health. Dental pain and missing or decaying teeth can affect dietary choices for seniors that may impact overall health and wellness. Vulnerable older Alaskans are at risk of developing dental infections that have been associated with periodontal disease, diabetes, pneumonia, and other chronic diseases including cardiovascular disease. Restorative dental care can help to prevent the progression of serious dental disease and discomfort which can result in more costly emergency care.

Older Alaskans utilize the Medicaid Adult Dental program. According to data based on Medicaid claims information for persons age 60 years and older for the period April 1, 2007 thru December 31, 2009, there were a total of 3,104 (unduplicated) seniors served by the Medicaid Adult Dental Program. The average cost for partial dentures for seniors ranges between \$1,085 (for a complete maxillary denture) to \$1,125 (for a complete mandibular denture). The approximate cost for a complete set of dentures is \$2,225. The current program cap is \$1,150 per year.

As we move forward, the Commission respectfully asks for your consideration of our recommendations below to enhance HB 265 and the Adult Dental Medicaid program for qualifying older Alaskans and other Medicaid recipients:

- Allow eligible patients access to two years of total funding as determined by the cost cap of the Medicaid Adult Dental program to permit individuals receiving partial dentures through the program the ability to access remaining benefits under the cost cap should they need additional denture services during the two-year period.
- Pending approval of HB 265, begin work with the Department of Health and Social Services to expand the two-year access of services to phase in other preventative and restorative services allowed under the Medicaid Adult Dental program in FY 2012.
- Adjust the annual cost cap for dental services (currently in statute for the last three years) to address the rising costs of dental care and encourage more participation of Medicaid dental providers.

Please accept our sincere appreciation for your efforts to improve the Medicaid Adult Dental program by allowing patients who qualify for dentures under the program to receive their full set of dentures according to a treatment schedule determined by the patient with their dentist. We believe that HB 265 will help to improve health and wellness for many older Alaskans who need dentures and we support passage of this legislation. Please feel free to contact Denise Daniello, ACoA's executive director, by phone (465-4879) or email (denise.daniello@alaska.gov) should you have questions or require additional information. Thank you.

Sincerely,

Sharon Howerton-Clark
Chair, Alaska Commission on Aging

Sincerely,

Denise Daniello
ACoA Executive Director
